Total revenue generated with our stores: £2,342,715

[Live counter, the client's figure, ticking up from the moment she lands]

1. HERO

[Background: her kitchen at 7am, soft morning light, dimmed. Main image: her hand holding a phone, lock screen stacked with Shopify order notifications, overlay: "While I was on shift."]

FOR WOMEN WHO ARE DONE WAITING FOR A PAY RISE

Take Control of Your Life: The Easiest Way to Make £3,000 to £5,000 a Month, Even If You're a Woman

Without learning tech, without working 50-hour weeks, and without asking anyone for money.

[Get Your Online Store Today →]

Delivered in 24 hours. 90-day money-back guarantee.

Official Shopify Partners | 20,000+ customers | Store ready in 24 hours | 90-day refund guarantee

2. WITH / WITHOUT

[Background: split. Left cold grey, right warm gold. Two phones, both 6:00am Monday. Left: banking app, £43.18, "Payday in 9 days". Right: Shopify app, "Today £359.88, 12 orders".]

Your job pays your bills. It will never change your life.

The lads posting their Shopify screenshots aren't smarter than you. **They just never built their stores themselves.**

WITHOUT A STORE

- Wake up at 6am for a shift you didn't choose, even when you're exhausted
- Check your balance before you buy something small
- Someone else decides your week, then changes it anyway
- Miss the things that matter. Bedtime, birthdays, your Saturday

- Another year building someone else's future

WITH A BECKETT ONLINE DROPSHIPPING STORE

- You take control of your life. Your hours, your money, your name on it
- You make money while you sleep, and wake up to orders that came in overnight
- Every sale drops straight profit into your account
- You work 5 hours a week and spend the rest of it with your kids
- You build your future instead of someone else's, and leave the job whenever you're ready

Same woman. The only difference is £20 and 24 hours.

3. THE 5 REASONS

[White cards on warm grey, one image per reason]

Reason 1: Your store is built for you in 24 hours. You skip the part that makes most beginners quit.

[Image: empty Shopify "Add your first product" screen next to the finished storefront, plus a "Your store is ready" email at 08:02]

- Our team picks the products, builds the store and links the suppliers, **so you never spend a single evening trying to work this out on your own.**
- Your online dropshipping store lands in your inbox within 24 hours, **ready to take orders the next morning.**
- AI can throw a store together in 3 days, and it still doesn't sell. Ours is built by hand by people who do this every day, **so yours is built to actually take orders.**

Reason 2: Your store makes money while you're at work, asleep, or with your kids.

[Image: order timeline, "Placed 10:14 / Sent to supplier 10:14, automatic / Shipped 14:02". Overlay: "You were at work for all of it."]

- When someone orders, the supplier gets it automatically, **so you never pack, post or touch a parcel.**
- Orders come in on your shift, on your break, and while you sleep. **You make £3,000 to £5,000 a month without adding a single hour to your week.**
- Once it's running it takes about 5 hours a week. **That's one afternoon. The rest of your time is yours again.**

Reason 3: You don't need experience, and nobody has to know until it's working.

[Image: video-call screenshot with a Beckett team member, plus a course card, "Module 1: Your first customers"]

- It's done for you and completely faceless. No videos, no posting, **nobody to tell until you're ready.**
- Our "40 Days to 5 Figures" beginner course and your 1-to-1 call show you exactly how to get your first customers, **so you're never sat there guessing what to do next.**
- New winning products are added every week. **When one slows down, the next one's already loaded, so the money keeps coming in.**

Reason 4: Every sale puts about £30 profit in your pocket.

[Image: a payslip beside a Shopify payout screen. Caption: "One took 180 hours. One took about 4."]

- A customer pays £39.99. The supplier charges £9.99. **You keep the £30 difference.**
- 1 sale a day is about £900 a month. **That's the food shop, the car and the kids' clubs, paid for by your store.**
- 3 sales a day is about £2,700 a month. **That's more than most full-time jobs pay, for about 5 hours a week.**

<small>Example based on the £39.99 / £9.99 split above. Shopify plan and advertising costs not included. Results vary.</small>

Reason 5: If it doesn't work, we'll give you your £20 back.

[Image: guarantee seal, Shopify Partner badge, a £20 note]

- One payment of £20 for your own online dropshipping store. **No hidden fees or subscriptions. You own 100% of it.**
- If you don't make at least 50 sales in your first 90 days, we give you your £20 back. **You take zero risk.**
- Why is it so cheap? We're official Shopify Partners, and Shopify pays us when your store makes real sales. **We only win if you win.**

4. TESTIMONIALS

[Warm light grey. Mix of review cards and chat screenshots, each with a photo in work clothes and a small dashboard crop. All six are [SAMPLE].]

These women took control of their lives.

20,000+ people have already got their online dropshipping store and generated £2.5 million+. Here's what happened in their first few weeks.

Demi L., 24, retail supervisor, Doncaster ★★★★★

"made £239 in my first week and i was on shift the whole time, still havent told anyone at work lol"

Amara O., 29, care assistant, Birmingham ★★★★★

"i do 12 hour shifts so theres no way i had time to learn all this, they did everything and i made £1,118 last month"

Katie M., 31, mum of two, Hull ★★★★★

"paid for my daughters birthday out of my own money this year without asking anyone, £412 in month one"

Sophie R., 22, waitress, Cardiff ★★★★★☆

"took 2 days not 24hrs which annoyed me a bit but the store looks proper and im on 31 sales now"

Nadia H., 27, salon, Glasgow ★★★★★

"woke up to 4 orders that had already gone to the supplier on their own, i didnt do a thing, still feels weird"

Leanne P., 34, admin, Newcastle ★★★★★

"never sold anything in my life not even on vinted and got my first order on a tuesday, i actually cried"

5. YOUR NEXT 7 DAYS

[Dark navy, vertical timeline, one phone screenshot per day]

What your next 7 days could look like

You keep your job. Nothing about your week changes. Except this.

Day 1. Tonight, you order your store for £20. **It takes 20 seconds, from your sofa.**

Day 2. Your store lands in your inbox, loaded with winning products. **You open it on your break and it's already live.**

Day 3. Your 1-to-1 call with our team. **They show you the fastest way to your first £3,000 to £5,000 month.**

Day 4. You start the module on getting your first customers. **10 minutes before bed.**

Day 5. Your phone buzzes at 11:42. "Order #1001: £39.99." **Your first sale, and you were on shift.**

Day 6. The supplier ships it automatically. **You didn't touch a parcel.**

Day 7. Sunday night. You look at your dashboard instead of dreading Monday. **6 orders. £239.94 profit, in one week, as a complete beginner.**

6. CLOSE

[Background: her kitchen table at golden hour. Laptop showing "£3,119.22 this month", a mug of tea, her kids' drawing on the table.]

Take control of your life. Start tonight.

Picture the Sunday the rota text arrives and it doesn't decide your week.

The card that goes through without you checking first.

The Tuesday morning you're at home with your kids instead of on the shop floor.

That's not luck, and it's not a lottery ticket. It's a store, built for you in 24 hours, selling while you get on with your life.

Build your future instead of someone else's. It won't happen overnight. But it can't start until you do.

Store ready in 24 hours. 90-day money-back guarantee.

4. FAQs

[Light background, five collapsible rows]

Before you go, the five questions women ask us most

"I've never sold anything in my life. Can I still do this?"

Yes, and most of our customers hadn't either. There's nothing to build and nothing to design.

Your store arrives finished, with the products already chosen and the suppliers already linked. **If you can use a phone, you can run it.**

"How much time does it actually take?"

About 5 hours a week once it's running. The orders come in while you're at work, asleep, or out with your kids, and the supplier ships every one of them automatically. **You never pack or post a thing.**

"Do I have to show my face or tell anyone?"

No. It's completely faceless. No videos, no posting, no announcements. **Plenty of women don't tell a soul until the money starts landing.**

"How is it only £20?"

We're official Shopify Partners, and Shopify pays us when your store makes real sales. That's why we can build it for £20 instead of £1,000. **We only win if you win.**

"What if I don't make any sales?"

Then you don't pay. If you don't make at least 50 sales in your first 90 days, we give you your £20 back, every last penny. **You take zero risk.**

[Take Control of Your Life for £20 →]

We only build a limited number of stores each day to keep quality high.
